

IQ TOUCH CONTROL 2.0

ULTRASUN INFOSHEET

THE IQ TOUCH CONTROL:

The IQ Touch Control is the digital control system with full touch screen, through which all Ultrasun professional tanning and Collagenic devices can be controlled. Every feature of your professional device can be controlled via the touch screen. Set the level of the body-cooler, to switching on the Breeze and Aroma function, it all can be set at the IQ Touch Control screen.

RECHARGE YOURSELF
